EXAMINER'S COMMENT

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the current drawings are INFORMAL. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art of record do not fairly teach in permissible combination the claimed invention. While the structural arrangement of operationally coupling the first and second gas turbines to a steam turbine is known, the precise steps for lowering the amount of NO₂ produced during startup and the occurrence of a visible yellow plume are not fairly taught.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
